Article Body:

The figures are outstanding. In only the FIRST THREE DAYS...

* 34,706 copies of the "Insiders' Report" PDF have been downloaded

* 2.3 people pre-registered, on average, every minute, which is...

* ONE SIGN-UP EVERY 26 SECONDS!

* Alexa Internet gave eVo a ranking of 3,157 in a list of most-visited sites on the entire Internet, for JUST ONE DAY'S TRAFFIC!

Sounds great, but what's all this site traffic doing for those like you who've maybe just pre-registered, them- selves?

Well... Simon Marriott, for example, introduced an incredible 386 friends and contacts. Then there's Paul Ward, with his 293. And Gavin Mountford, with

284.

Not forgetting Parvis Parvizi who, in the first three days, personally introduced 119... who, in turn, introduced others, developing a total team for Parvis of 2,853.

Now, if all of those personally-introduced people were to join e-play when it launches, that would earn Parvis approximately \$23,520 USD in his first month... from just one of seven income streams available!

However, that figure was eclipsed just 24 hours later when, thanks largely to the use of the "tell a friend" facility, the people joining in response to his invitations jumped from 119 to 225... and the people who joined from their invitations, in turn, helped the team total jump from 2,853 to a phenomenal 4,583!
