

## Carry the Best Pepper Spray

If you haven't already noticed, women and men everywhere are adopting new safety measures when it comes to personal crime. Can you really blame them? No one wants to become another victim or statistic on the local news. Therefore more and more companies are developing pepper spray products, stun guns and personal tazers. What are you toting around in your purse or pocket? These personal protection devices are all the rage for several reasons. However, how do you know how to pinpoint the best pepper spray products, tazers and stun guns?

One of the primary reasons pepper spray is so popular is the damage aspect. It won't kill anyone! You can whip out the best pepper spray on the planet, hose an assailant down with it, and not have to worry if you killed someone or not. The same can't be said about edged weapons and firearms. When it comes to guns and knives, a great deal of damage can be done. This is why they call for special permits and are not aloud in some states at all. No big deal. Why deal with all the hassles and potential law suits guns and knives present? You can acquire the best pepper spray products online in a jiffy and easily carry it with you each day. Pepper spray commonly comes in small, medium and large canisters. It's really up to you which model to carry. The potent amount of powerful pepper in this product is what makes it go effective. You can temporarily blind an assailant and even make them sick, but they'll live and you'll escape.

If you're currently seeking some of the best pepper spray products around, then it's wise to surf the web a bit. Try out websites like [womenonguard.com](http://womenonguard.com), [homesecuritystore.com](http://homesecuritystore.com), [defensedevices.com](http://defensedevices.com) and [pepper-spray-store.com](http://pepper-spray-store.com). Each of these web stores offer a grand variety of great pepper spray devices for personal defense. Prices generally range from ten dollars and up, depending on the pepper spray model you choose. In general, pepper spray is recommended over tazers since the shock of these devices can cause heart failure. Find an ideal pepper spray device today!
