

Aspen Nightlife - Music in the Mountains

There is always something of interest going on in Aspen, and September is no different. During the month of September, every year, JAS comes to Snowmass. JAS, or Jazz Aspen Snowmass, began in 1991 to honor the art of Jazz in the Roaring Fork Valley. It has now become a music attraction that lasts all summer long, with the biggest celebration coinciding with Labor Day weekend.

While this is a Jazz celebration, for all intents and purposes, all types of music are celebrated, including reggae and rock-n-roll. Famous musicians and singers from around the world attend the four day Music in the Mountains celebration.

All events take place in the breathtaking Snowmass Town Park, located on Brush Creek Road in Snowmass. Snowmass Village is one of the most beautiful places in the United States, and this festival is extremely popular. It is vital that you purchase your tickets well in advance, and arrange lodging well in advance also. Snowmass advises that if you do not have a ticket, to not show up for the festival - it will be sold out.
