

## Contemporary Table Lamps

After letting things slide for a few years now, I've decided to make a commitment to finish up a few home improvement projects that need my attention. I'm not talking about anything major here, but nevertheless, these are things that have to get done. For example, I want to repaint the bedrooms, install a new oven in the kitchen, and redecorate the living room.

I'm going to hire a handyman to take care of the first two projects, but I'll handle redecorating duties on my own. Again, I'm not looking to completely overhaul the place; I just want to modernize things a little bit by upgrading the furniture and accents. For instance, I'm hoping that adding a few contemporary table lamps to this room (and perhaps others) will really work wonders.

Right now, I just rely on the overhead lights because I always thought they were sufficient for my purposes. But a friend of mine recently told me that even the simple addition of a beautiful contemporary table lamp could change the look and feel of the entire room. That's because sometimes decorative accents -- especially nicer ones -- can draw the viewer's eye to a particular location, and highlight a certain area of the room. I don't know if I can achieve that kind of result just from a contemporary table lamp, but I'm willing to give it a try!

Since I've already ordered my new furniture for the living room, I can begin shopping for contemporary table lamps that will complement those pieces. I've been looking around at some online stores that specialize in home furnishings, and have been very impressed with what I've seen thus far. There are some absolutely brilliant creations out there that I would love to get my hands on. If I'd known how lovely these contemporary table lamps look, I would have started my redecorating project years ago!

During one of my browsing sessions, I managed to find a retailer that is having a major sale on designer contemporary table lamps from Murray Feiss, Quiozel, and other top manufacturers. Discounts range from 50 to 80 percent off the original price, and free shipping is included. I've already found one contemporary table lamp that I want to buy from there, and will keep looking around for a couple more.

I'm anxious to see if the simple addition of a contemporary table lamp will make as much of a difference in my living room as my friend said it would. Maybe I should have held out on my buying new furniture in order to save myself a thousand dollars or so!
