Article Body:

Planning to visit Las Vegas or any other vacational resort where casinos are a major portion of their business? I have just the thing for you. Here, I will show you how to pass off as a High Roller and collect many complimentary items and gifts.

What is the Secret?

The Secret is that you have to make them believe you are rich and love gambling. In short you have to impersonate a High Roller.

Why?

Hotels love high rollers because these players leave behind thousands of dollars each visit. And the real cool part about this is that if you act the role, casinos will lavish you with the same gifts and complimentary items that a real High Roller would receive.

How ?

It is not that difficult to fool the hotel and resorts with some finesse and true self-confidence. It can be done.

1) The Way you Dress:

Elegant and smart is the way to go. Opt out of the baseball cap, t-shirt and jeans. Try and wear a suit or at least a regular buttoned shirt with an elegant dark jacket. It was Shakespeare who said that the clothes maketh a man, and so too, when going to a hotel resort. They judge you according to how you dress, so dress according to the role.

2) A Large Pad of Notes:

Yes. Just like in the movies. Carry a large bundle of notes with you and keep them in plain sight. You do not have to really take with you that much. Instead, take a few notes and place them at the top and at the bottom of real note-size paper cuttings. Just remember to never expose this while you are in the casino. Use other notes you're your wallet instead. But do it nonchalantly so that none of the casino personnel will notice.

3) Always Flash Your Notes Around: No matter where you go, whether its to the hotel restaurant for lunch or for to the bar. They will be watching. From time to time, use that money to play at a range of table games or video game and bet some of that money. Remember you must use some of your money to play but just do not use all of it.

4) Play Complicated Games:

This is one of the more problematic things to do and requires some training at home. Learn on your own how to lay and how to bet on the high rolling games such as roulette, baccarat and craps. You could also play poker or Texas holdem in one of the larger ante tables, but in any case stick to your plan and you will soon reap the flowers.

Conclusion:

Above, I have outlined some of the more practical methods by which one can save money by receiving gifts from the casino. These gifts range from casino comps (free money to play), room deals that can get nearly free and many others such as free drinks, clothes, coupon to stores in Las Vegas and many more. Note that what you are doing here is completely legal provided you don't take up a false name or falsify your passport card.
