Article Body:

You never know when you are going to lose your job, or have to find another way to make more income. Making money is not about sales, brains, or having money to make money. It is about Networking with people and building a web. As Zig Ziglar said, you

can have everything in life you want, if you help enough other people get what they want. Think about it for a second, what if you helped ten people reach their goals? Do you think they would remember you? Of course they would! They are not going to remember the company or the product, they are going to remember the person who made some of their dreams come true. They will return the favor one day with out a doubt. Global Resorts Network (GRN) is a proven fact of this. When you help other people, you can count on you web growing.

And when you teach the people how to help and mentor other people that are in need, guess what, you will gain from that. Not only mentally and emotionally, but financially as well. It is a numbers game to a certain point, but only to a

point. People do not buy the company or the product in Network marketing, they buy people. They buy into what you as a person can offer them in support and teamwork.

Traveling is one of the most sought after forms of relaxation more than anything. People love to travel to very high end resorts as well. It is as if they spend the money on vacation to feel like royalty for a week. Some people golf, others build cars, some buy extravagant toys, and then there are those of us that travel. Global Resorts Network (GRN) knows that people love to travel and they know how expensive it is. I feel bad for the people who got involved in a twenty, thirty, fifty thousand or more timeshare. If they would only have known the secret that Brent at LifetimeResort.com and so many others do. When we talk with timeshare owners, they are sick and tired of all the fees and payments that come with the timeshare, and also the fact that they only get one week out of the whole deal.

And you have got to just hate the high pressure selling of these free dinners or free sunset cruises you get. These are some of the best salesman in the world, and unfortunately, you are falling into their trap if you want to go get a free dinner, Free is a funny word here, I would argue that after they sell you on a timeshare, you just paid \$20,000 for the meal you just ate. But that is my opinion, and LifetimeResort.com is in agrees as well. Global Resorts Network (GRN) is not in the business of asking people for double digit sums of money. They want to actually help people build a dream. People helping People, that is what it really boils down to, really go do your research for your self. And I dare you to ask questions and lots of them to. Try to find the scam, try to find the catch.you will not. All contact info is in the resource box.don't be shy
