

Cellular phone wallpapers, give your phone personality

In the modern society we live in, cellular phone is already a necessity; no longer valid is the notion that this is merely a luxurious toy. For minors, however, cellular phone usage is very popular as a dress up gadget. Although, the parents think of it is a necessary communication for them to be able to check their children wherever there are. Although they never foresee this boom some years back, manufacturers are quick to flood the marketplace with functional and high-tech cellular phones. Various beneficial features of cellular phones are not available in a landline telephone; this is what can make cellular phones outpace landline telephony. For those who want to dress up their cellular phones, you may also find cellular phone useful. Manufacturers and computer experts introduce the possibility of giving your phone personality by introducing cellular phone wallpapers.

If you want cellular phone wallpapers, getting one from the internet is very easy. You may also transfer images as cellular phone wallpaper from Cellular phone to another cellular phone. Even the pictures shot from your own cellular phone can be your cellular phone wallpaper. Additionally, this modern technology also allows a picture taken from a digital camera to function as your cellular wallpaper you may just need to upload the image to your phone. You may even add texts to the pictures to add distinctness to your cellular phone wallpaper. Cellular phone wallpapers are merely to add beauty and personality to your cellular phone. However, if your cellular phone does not support uploading cellular phone wallpapers, do not despair, this does not mean you will not get the benefits of owning a cellular phone. Additionally, cellular phones even without cellular phone wallpapers may have its own personality; personalized ring tones may do the job of giving your phone personality as well. Having no cellular phone wallpaper does not say you have an inferior cellular phone. Anyway, the basic features of cellular phone like sending and receiving calls do not require personality or cellular phone wallpapers. Even sending and receiving text messages do not require cellular phone wallpapers. Functionality does not necessitate cellular phone wallpapers; their use is only to dress up your phone and for the purpose of flaunting your cellular phones high technology features, nothing more.

Finally, keep in mind that intelligent cellular phone usage include keeping in mind cellular phone etiquette. Cellular phone etiquette do not just give your cellular phone personality, cellular phone etiquette exhibits your personality, the users personality is more important that your phone having personality. Even if your phone do not include such high technology and innovative features, if you can turn off your phone during meetings and avoid having to annoy the other

person in front of you, you are exhibiting a personally that is intrinsic in you.

If you exhibit cellular phone etiquette, even without cellular phone wallpapers, you will get all the benefits of this modern day gadget. You may even get the respect from other users, if you respect them they will not use their phone unethically that may annoy you. It is a two-way traffic, if you exhibit telephone etiquette, the people around you will do the same. Moreover, you do not need cellular phone wallpapers to gain respect from exhibiting telephone etiquette.
