Ultra Mix: The Best of Salsa - This is a must-have CD for any salsa. Some say it's best suited for listening, while others are convinced it's one of the best compilation discs for salsa dancing. Go to your local music store or check it out online. You'll be glad you did.

These CD selections are a great way to begin your salsa music collections. However, some other great tips to finding great salsa CDs is by listening to

local radio shows that feature Latin American, Cuban and Afro beats. Most likely you'll also be able to hear some salsa beats you've never heard before. Listening to these types of radio shows exposes you to the different sounds and usually makes mention of the artists that are being played. This will make your shopping experience so much easier. Also consider checking out your local salsa dance bar or salsa dance studio. The DJ or dance instructor would be happy to tell you what albums and / or songs they are playing.

Check out your local music store or go online to find the above mentioned CDs. I guarantee your neighbors will be banging on your door wanting to know what it is you are playing. These salsa CDs are that good!

Happy Shopping! Oh, but don't forget to check out [www.salsadancedvd.com](http://www.salsadancedvd.com) where you'll hear the above mentioned artists and more. But you will also get the best salsa dance training available. Don't forget to check it out!
