Article Body:

"Gone are the times when someone who wanted to learn the guitar had to adjust their schedule and travel to a class. Today the internet has taken over as the most reliable source of learning guitar from the comforts of one's home. The lessons start with the basics of playing guitar and one can gradually start at their own pace with these lessons. The basic lessons include a step by step guide on different chords, holding the guitar, strings, etc. The lessons then gradually continue with the advanced techniques of playing the guitar in all levels and styles.

One can learn to play either an acoustic guitar or electric guitar or both techniques of playing either style is slightly different. Lernguitar.net can help one master both the techniques. In a space of just two weeks one can start playing the guitar confidently in front of a small family gathering or even a party. One can even imitate the style of their favorite guitar players by learning from the internets top instructors such as Sonya Perricone, Rick Napolitano and Don Lappin. The site contains hundreds of compositions from the world's best guitar artists.

All the lessons are placed in a continuous flow so that you don't get lost in the mix. The site is unlike any other free guitar lessons site where guitar lessons are just posted without caring about the order. The site also shares the secrets of the Pro's which have made them what they are today. One can follow in their footsteps and become a professional guitar playing artist himself by learning through learnguitar.

Next on the list of imparting lessons is learning the tricks of mastering the different scales on the guitar. Mastering scales requires a lot of practice but Learnguitar makes it easy and enjoyable. The best part of the site is that it encourages the learner to try out the different styles with a lot of confidence. One can master more than one style and be good at both of them. Apart from mastering scales, the site also teaches you how to become perfect at playing chords and rhythm. The best part of playing any musical instrument is that if one plays it in the correct manner one gets a lot of confidence and motivation to continue the learning process and this is the sole purpose of Learnguitar.

Apart from techniques one can also concentrate on a particular style of playing the guitar like Jazz, Metal, Country, Funk, Blues and Rock. All the lessons are in the form of easy to read printouts and videos. Learnguitar guarantees that even a beginner who does not know the ABC's of guitar playing will become a pro if they seriously spend time with the video guitar lessons and practices playing the guitar regularly.
