Objectives To assess the effects of tobacco advertising and promotion on nonsmoking adolescents' future smoking behaviour. Authors' conclusions Longitudinal studies consistently suggest that exposure to tobacco advertising and promotion is associated with the likelihood that adolescents will start to smoke. There are no trials of the impact of tobacco advertising and promotional activities on people taking up smoking. The Act bans advertising and promotion (including sponsorship) of tobacco products, with certain limited exceptions. The treaty obliges Party States to undertake a comprehensive ban on tobacco advertising, promotion and sponsorship, as far as their constitutions permit. Internal tobacco company documents confirm that young people are a primary target of advertising and promotional campaigns .

The Association has repeatedly urged the Government to legislate for a comprehensive ban on all forms of tobacco advertising and promotion. These data add up to a strong circumstantial case that tobacco industry advertising and promotional activity encourages adolescents to smoke. This decline was associated with an almost exponential increase in tobacco industry expenditure on advertising and promotion of cigarettes. There is considerable evidence that tobacco industry advertising and promotion are one of the major influences on the uptake of smoking by the young. The settlements bar the use of cartoons in advertising, promotion, packaging or labeling of tobacco products.
