Have you ever tried a single cup coffee maker? These are a great addition to any coffee-drinking household. When I look at my parents, it's hard not to notice their love for coffee. Since they're in their 60s, they prefer a coffee pot drip beverage, over a caramel macchiato.

In fact, they will brew a pot of coffee two or three times on any given day. This is probably common in most households. The only problem with this system is it doesn't make much sense. I can't help but notice what they're wasting. Many times they will brew an entire pot of coffee simply to drink a single cup. That's not efficient.

Well, this is why they invented the single cup coffee maker. The minute I spotted this cool innovation, I purchased one for my parents. With a single cup coffee maker, you don't have to brew that full pot every time.

This machine actually makes a single, fresh cup of coffee with no mess or waste. How cool is that? This is perfect for those who live alone, or merely want a single cup of coffee at a time. Not everyone drinks four or five cups straight like my father.

Isn't it time for that morning cup of java? This seems to be the trend in

American households. We all want to wake up to that fresh aroma of quality coffee beans. In fact, many cultures have adopted the same regime.

It's been around forever. The old caffeine buzz is imperative to start our day off right. The big question these days concerns your coffee source or coffee machine. Where do you turn for your morning fix? Do you have a new-age espresso machine, or possibly stick with the old-school drip coffee pots? Either can make a great cup of coffee.

It just depends on your taste. Another cool addition to the world of coffee innovations these days is the single cup coffee maker. Ah, things just keep getting easier; don't they?

If you are in search of a single cup coffee maker, a great place to begin your browsing is online. The World-Wide-Web has a variety of single cup coffee makers to choose from. You can sort through customer reviews and find out what others have experienced before buying one in particular.

With a number of websites at your fingertips, you can surely pinpoint the least expensive single cup coffee maker that's right for you. That morning cup of java is no longer a hassle. You can have your cup at the push of a button these days.
