Coming up with Easter craft ideas on your own is too hard. That is why you can start searching online for these kinds of ideas. The internet is the perfect place to find as many Easter crafts as you will have time to make.

Some of the best Easter craft ideas use eggs. There are so many ways to decorate eggs for Easter and with a little imagination you can make all kinds of creatures and fun characters.

Here are some great ideas that you can use this Easter to make your holiday more fun for the entire family:

**Mouse egg**

This little guy is one of the cutest of all egg creatures that you can make for fun with your kids. You can turn any egg into a mouse in just a few minutes. All you need is some pipe cleaners and paper.

Simply dye your egg any color you want and let it dry. Once that is done you can make a little pipe cleaner stand with legs for the egg to stand in. This makes the lower body of the mouse.

Then add a long pipe cleaner tail, a puff ball nose and some cute little paper

ears and voila! A mouse egg is born.

#### Easter wreath

These are gorgeous and fun. You can make new ones each year new or you can simply keep them from year to year. Keeping the wreaths from year to year is fun because kids love to see their past art projects. It is thoroughly thrilling to them. <http://www.youreaster.com/easterwreath/>

Just get some paper plates and cut out the center. Then paste the two leftover rings together. It does not even matter which way you paste them.

Then make some paper flowers or bunnies or some cute little pipe cleaner flowers and stick them on.

If you can get some of the artificial grass that is used in Easter baskets it makes a great base for the wreath. If you attach this grass to the entire wreath it makes for the perfect background to the flowers and bunnies.

Making Easter crafts is a blast and you will find that you are having as much fun as the kids! If you are looking for the perfect way to make this Easter holiday special then you have found it with Easter crafts.
