

Title:

Enhancing Photos In Photoshop

Word Count:

333

Summary:

Have you ever wondered why the Hollywood stars always look so perfect in the magazine photographs? Why is it they consistently look so good?

Their hair, teeth and skin always seem to be perfect and so beautiful. Is this the magic of stardom or Hollywood? No, this isn't magic. It's just Photoshop.

Photoshop is the same photo editing software program being used by professionals in the entertainment industry to make movie stars look younger, slimmer and better.

They hav...

Have you ever wondered why the Hollywood stars always look so perfect in the magazine photographs? Why is it they consistently look so good?

Their hair, teeth and skin always seem to be perfect and so beautiful. Is this the magic of stardom or Hollywood? No, this isn't magic. It's just Photoshop.

Photoshop is the same photo editing software program being used by professionals in the entertainment industry to make movie stars look younger, slimmer and better.

They have been doing it for years and now you can achieve the same results with a little training and practice using Photoshop for some of these same photo enhancements.

You can learn to make amazing enhancements to any photograph using the tools and functions available in Photoshop.

The following are just a few of the improvements you can make to people

pictures.

- Whiten stained teeth
- Remove unsightly scars
- Smooth age wrinkles
- Clear up acne
- Remove blemishes
- Double chin removal
- Fill in bald spots by adding hair
- Open closed eyes
- Remove tattoos
- Hide body piercings
- Change eye color

With Photoshop you can easily make yourself or anyone look better. You can even change the colors of the clothing people are wearing.

You will be amazed by the results you can achieve with Photoshop. You will not only be able to improve the appearance of people but you will be able to completely remove people from the photograph, add people from other photos or change the background.

Master these Photoshop techniques and you will be in demand for photo editing and graphic design projects.

People with these types of skills are in needed for photo retouching, web design work, logo design, advertising, and more. Not only can you have fun touching up your own photos but you could start a business doing photo enhancements.
