Before you begin your search, you should make a very long and thoughtful decision on what look you are going for in your room of choice. You should know before hand what motif your room décor is going to be. For example, is it going to be antique, new age, country, or possibly themed. These are many choices that will decide what type of small accent tables you will be choosing for your room. There are various types of wood that small accent tables are available in such as bamboo, cherry, mahogany, oak, or maple. Perhaps you are going for the country look and only want flat wood with flat paint; that can be arranged as well.

Small accent tables are sold individually or by the set. The sets sometimes come in twos or threes and each may vary in size or they all could be the same size, the choice is yours. The sizes range from tall, medium, and short. The shapes range from a drum shape to an oblong shaped accent table. Depending on the design that you have for your room, this will also determine what design and

size of small accent table you will be wanting to place in that small space.

If you are going for the open and airy look, you may choose a rectangular cocktail table to place in your room. This type of small accent table gives a room a feeling of openness and cleanliness, with glass tabletops and wiry frame with a small wooden base to give some definition to it. These types of small accent tables coordinate in many situations.

If you are looking for a more antique look you could venture towards something that is aged or at least looks as if it is aged. Small accent tables that have carved aprons and post medallions are a great choice for the antique look. Maybe you would like a deep dark wood that has great carved detail into it and look as if it sat in a plantation home a hundred years ago. You could even go with a game style accent table that includes the game pieces. This gives your room a special uniqueness to it as well as display a very beautiful piece of furniture.

If you are looking for storage in your small accent tables so that you can hide phone books, cigars, lighters, or pretty much anything that you really do not want everyone to see. Then there are many various types of small accent tables to suit your needs in this area as well. The choice is yours and you have many of them.
