Article Body:

Mesothelioma research refers to the studies for discovering new facts or information about mesothelioma cancers. Mesothelioma is a life threatening cancerous disease. It affects the lining of abdominal organs and lungs. Only known reason of this disease is exposure to asbestos particles. Diagnosis of mesothelioma is a difficult process. This is mainly because asbestos particles may lie dormant in the body for up to 50 years before appearance of symptoms. Average survival time of mesothelioma patients is 1-2 years. Mesothelioma research is important considering the increasing number of mesothelioma patients every year.

Key Points of Mesothelioma Research

Most of the mesothelioma research going on today is focused towards the effects of asbestos particles on human cells. Scientists undertaking mesothelioma research are studying the process through which asbestos corrupts the healthy cells of the body. Ongoing research about mesothelioma provides a ray of hope that sometime in the future it may become possible to prevent the damaging effects of asbestos particles on human cells.

During the course of mesothelioma research, experts are also performing clinical trials on the mesothelioma patients. They are conducting clinical trials on the patients who are diagnosed for mesothelioma cancers on early stages as well as

later stages. Doctors emphasize on trials on both types of patients because both of them equally require relief from mesothelioma cancers. Ongoing mesothelioma research and newer information every day provides hope to mesothelioma victims that any trial can result into the discovery of an effective treatment for mesothelioma cancers.

Sponsors of Mesothelioma Research

Many organizations including the companies responsible for the exposure to asbestos particles are sponsoring mesothelioma research. It is the moral duty of those companies because many people are on brink of death because of their negligence. Law firms are also keeping a close watch on mesothelioma research because many patients are adopting legal course for seeking mesothelioma compensation. A mesothelioma law firm has better chances for getting compensation for its client if they better information about this dangerous disease.
