Article Body:

From time to time everyone needs some time away from their life. It does not matter if you are 10 years old and in 5th grade or 35 years old and working a full time job, to maintain good mental health you have to take the occasional vacation.

Some time around the beginning of April most public and private schools have Spring Break from School which is a great time to plan a vacation.

Most vacations when you have children become about them, and you wind up at places like Disney land or some other child orientated vacation spot, but what about you?

Las Vegas used to be known as an adult getaway where what happens there stays there. This is no longer the case. Over the past 15 years, Las Vegas realized that more money can be made from a family orientated city rather than just from gambling.

Many casinos started adding attractions for children like go carts and other amusements, and many other activities aimed at giving a child a good time, but the casinos also opened up day care centers, so parents can get some time to enjoy themselves as well.

I know when I would go to Disney World with my kids after the 2nd or 3rd day I was looking forward to getting back to work.

For the last several years we have been going to Las Vegas for our family

Vacations over spring break and the kids enjoy it. They get to go on roller coasters, swim, play video games, watch movie the list really goes on and on for all the things they can do, and I get to spend a few hours ever day with my wife in the spa getting a message, eating in nice restaurants and playing some Blackjack in the casinos.

Since we started doing this I have seen my family grow closer. My wife noticed that I am in a better mood for the rest of the year after we get back from vacation. I am enjoying my job more and all in all life is just better.

Putting together a Los Vegas vacation is very simple to do. You can go to a travel agent, or do it yourself online. I have always preferred to go to a travel agent and just let them do it, but if you are trying to save money you can get some good deals online that a travel agent can't or won't offer you.

If you choose to do it yourself, it is easy to do. You can go to your computer and do a search for Las Vegas. You will see every casinos and hotel listed and you can go thru them one at a time and see what they offer for you and your family to do.

You will also see everything the city and surrounding areas have to offer, and there really are tons of fun things for everyone in Las Vegas.

I hope to see you and your family there.
