For those of you who have been considering purchasing an iPod MP3 player, the time is now to do so. This is because the newest iPod has just recently been released. You will find that these iPods are actually a lot lighter and thinner than past versions of iPods. Nevertheless, you can still purchase an iPod that has 80GB of memory and it will still be a lot smaller than the smallest walkman that has ever been on the market.

Video On Your iPod - iPod video is of great quality so you will not be disappointed with this feature. This video is not just available for your children either. As an adult you will enjoy watching a lot of your favorite shows, music videos and full length movies on your iPod. There is also a larger screen available with the newest version of the iPod. This screen will make it much easier and more enjoyable for you to watch your videos. Plus, you can also find audio books and other audio files that you will enjoy. As such, you will more than likely be surprised by just how great your iPod really is.

Great Things To Purchase For Your iPod - You will soon discover that there are a lot of iPod accessories available. These accessories include: a universal clock, an address book and numerous games. It is also possible for you to store your favorite photos on your iPod. You can store your photos in full size thumbnails that can be organized into a slide show. As such you can now have your

photographs always with them for you to show off whenever you get the opportunity to do so.

As you can see, there are a lot of great reasons why you should purchase the latest version of the iPod. There really are a lot of great improvements included within this version. Therefore, almost everyone will find it very appealing to own an iPod now. This only becomes better whenever you realize that the batteries will last for 20 hours, so that you can get a lot of enjoyment out of your iPod.

However, there is one disadvantage to purchasing this new iPod and that has to do with the fact that its surface can easily be scratched. However, you should still purchase this iPod, since the advantages far outweigh the disadvantages. Just make sure that whenever you are using it you are careful with it and you will not have any problems.
