The demand for laptop accessories is growing steady. People are constantly looking for new accessories that go with their laptops. Popular laptop accessories are nothing more than some special add-on's or additional gadgets attached to the original setup of your laptop which makes working of your machine more smoother. Especially for the travelers it is a boon as they can stay productive even while on the roads.

With the burgeoning demand of laptop accessories coupled with a fray of these available gadgets in the market, you have many options at your disposable. The most common and the top most accessories available for your laptops are:

- **Bags:** The right kind of bag is very essential for your laptop, as it is the outer most protective shield. The bag should be sturdy enough to bear the weight of your machine.
- **Note Book Security Cables:** Preventing your dream machine from theft is a very important concern. This lightweight cable wraps around the stationary device and then locks the security slot of your laptop. If your machine does not have an in-built security slot, then an optional glue-on adapter comes with no extra charges.
- **Portable Hood:** This necessary equipment improves the screen visibility by

eliminating glare and also reduces eye strain. The shade also works as a privacy screen concealer of your confidential documents.

- Laptop Mouse: If you are tired of scrolling your finger over those hard touch pad, there comes an optical mouse at your service, both wireless and wired, suiting your requirements.
- Mobile Printers: It is yet another important accessory needed for your machine. It makes you independent wherein comes the matter of taking printouts of the important documents for your immediate use.
- Laptop Desk Version: This particular accessory is engineered for the heavier laptops in order to give relaxation to your legs on a journey, coupled with five typing positions and a rubber surface.
- Podium Cool Pad: This add-on provides heat dissipation and a 360 degree rotation benefit along with helping you to adjust your laptop keyboard.
- Headset Microphones: It gives you the benefit to control your output.
- Speakers: Apart from the inbuilt speakers, using external speakers gives you an extra edge at time of meetings and presentations.
- Portable USB Handy Lite: This gadget is a convenient way to illuminate your laptop keyboard when the light is poor.
- Earbud Headphones: It is an important accessory for the telecommuters. It is small and compact and is also able to filter out the background noises.
- Multi Power Car Charger: Multi Power Car Charger is a very useful accessory for those who spend most of the time working on laptops in their cars.
- USB Handy Fan: It is a perfect accessory for your laptop in hot and humid environments, which helps to create a gentle and refreshing breeze.
- DVB-T-USB Stick: with this add-on in your laptop, you can watch and record TV and radio shows.
- USB Number Pad: It is a USB hub with two additional USB parts that helps you to connect to more USB devices. This gadget helps you to work more quickly, easily and accurately on the spread sheets.
- USB Numeric Pad: It is a 19-key device which offers an instant benefit to the

notebook users.

- Web Camera: An accessory which you can use to stay in touch with your friends by seeing them.
- Phone to PC recorder: It helps you to connect to your telephone handset with your laptop's sound card, enabling you to record the telephonic conversations.
