**Article Body:**

Finding a MySpace background and layout to customize your profile on the community is not at all a difficult task. If you did not know something about these options, then here is one thing that you should definitely know. MySpace is the only online social networking site, which allows users to customize their own profiles. They know that people get bored quickly, and thus they allow them to keep updating their profiles.

Finding a good MySpace background and layout can be done on the search engines. But hold on! That is not as easy as you think it is. You will have to be prepared to look for hours for the right theme. This is not because there are no good sites to find the needful. It is because there are so many designers out there, that they are posting new backgrounds and layouts for the community almost every day.

If using search engines, you need to hunt properly for the best sites, as there will be not be immediate results. You will have to ensure that you are avoiding spam, and that you do not allow your profile to get customized with a poor background and layout. Another best option you have is to visit various other profiles on the community itself. Most users are bound to have used various MySpace backgrounds and MySpace layouts.

Once you browse through these, you will get a fair idea about what you might want, and the search will be much easier. Similar references can be made while looking for appropriate designs while searching. One could also use the help of directories to get information about how to use them. Not many people are familiar with the use of these MySpace layouts and backgrounds.

If they are not familiar, they could take help from such articles, which will be posted by many thousands who have used these options. There will also be experts on these topics that will post information about how to use them and what best options users will have. Sites dedicated to the use of backgrounds and layouts will be the best places to find such information as well.

Information will contain details about how you can apply the layouts and backgrounds to create the best look and feel for the profile. Users can also get tips about where they can find the best ones, besides how and why they need to make use of these for a better profile. There will be thousands of sites available for themes as well as information, and as long as you choose the right ones, you are on the way to having a great profile.

With information you will also learn how to attract other users to your profile, and how you can increase the group of friends with the use of backgrounds and layouts.
