Summary:

If you are not afraid to take risks there is a way to make millions of dollars playing Video Poker, and here I am going to give you the secrets that have given me financial freedom.

Keywords:

Poker,casino,gambling,sports,entertainment,atlantic city,las vegas,blackjack,roulette,sports,video poker,video,

Article Body:

Most people will tell you that the only way to walk out of a casino a Millionaire is to walk in a Billionaire, but the fact is this is not the truth. It is only the easiest way to do it.

If you are the type of person who is not afraid to risk it all for the big payoff then this may be for you.

Video poker machines can be found in every casino both land based and online casinos. These machines have the best chances of making you a millionaire in any casino.

All you need is a credit card with at least \$20,000 and the nerve to risk it, in what can be less then 20 minutes. I recommend saving up \$20,000 dollars before trying this and not just running up your credit card, but when I first tried it I did just run up my card.

The game you pick is very important. There are many different types of poker games offered in video form, in some of them you play a computer player and the player with the best hand wins, in the second there is no other player, the better the hand you make the more the machine pays out. A pair pays 1:1; two pairs pay 2:1 and so on. The 2nd type of Video Poker machine is the one you want.

Please keep in mind that this is not a guaranteed way to win money, and if you

do not win money you can wind up twenty thousand dollars in debt, but it has made me a lot of cash, over the past 2 years I have paid all my expenses playing poker in this manner.

I usually start with at least 20,000 dollars, and making \$1,000 dollar bets before the \$20,000 is gone I have had at least 1 good hand where I have at least made back my money and can now start going for the big money.

Do not increase your bets to more then \$1,000 until you have made at least \$100,000.

I first discovered this method almost 2 years ago; I was spending my weekends down in Atlantic City playing poker, blackjack and roulette, and not winning any money, but during the week I would play a free video poker game from home, and I was winning millions of dollars every week.

So one day I decided to give it a try and instead of spending my money at the table games I went right to the video poker game, and by the end of the weekend I was up almost \$60,000.

Now every few months I go down to either Atlantic City or Las Vegas, I have a bank roll of \$20,000 and I make a few hundred thousand to get me till the next time.

Remember there are no guarantees that this will work for you. There have been times where I went over my \$20,000 bank roll before I got my first really good hand, but I also remember one time I got a full house which paid off \$25,000 on my first hand.
