Article Body:

Chrome bar stools are an excellent pick for business-related and domicile settings. Any bar, restaurant or night club that has a mostly metal or shiny interior wood look absolutely superb with a collection of chrome bar stools. Chrome bar stools also set off colourful design schemes, mainly pastels and dark, rich colours.

Most chrome bar stools come with a variety of colour seats they attribute black, raspberry, or some other deep colour to counterbalance the shimmering chrome. This style of bar stool does not typically incorporate seatbacks, but if you are determined enough you can find them easily. Swivel seats for a chrome bar stool are also the standard.

A good point to remember when considering buying a chrome bar stool is they don't rust.

For places of industry this is exceptionally useful for when drinks get knocked over or cleaning of the stools need to be carried out, this could facilitate rust on an ordinary stool. The same applies to chrome bar stools found in the home, if the bar stools are in the kitchen say, then the legs could get a good soaking from kids spilling juice and stuff.

Another key advantage to a chrome bar stool is its durability and strength; this is of course a huge advantage for industry as stools get knocked about a lot as well in the home if you have kids.

When deciding on your bar stool from a dealer or store, be sure to sure to ask

them what the bar stool is constructed of underneath the chrome.

There are 2 prime materials you are looking for, 1 is tempered steel or hardened aluminium, stainless steel will work as good but nowhere near as long standing. Copper or any other malleable soft metals will also reduce the long-term durability of the stool.

When you think about the construction of the bar stool there are several stool style u may like.

The classic [chrome bar stools](http://www.marios-bar.com/chrome-barstools.html) have no back rest, a swivel mechanism and vinyl cover, and two rings holding the four legs in position. These stools have many commercial uses, but can also add style to your home bar or game room.

If a more modern look is preferred, try pyramid style chrome bar stools. These feature legs that are angled to join the seat at one point in the centre of the seat's bottom. It's a futuristic look that goes well with many decors
