

## California Tan Products: Redefining Color and Beauty

The whole of California together with the rest of the world are raving over tanned skin. Why? Well basically because of the fact that people who have tanned skin looks healthier, attractive and thinner. And let us not forget that tanned skin is less likely to get skin cancer compared to white skin. There are lots of ways on how to get a tan. And the most common and inexpensive way is to sun bathe. However, long exposure to the sun can prove to be dangerous especially for people with white skin since long hours of sunbathing may lead to sunburn or worst skin cancer.

The same danger is derived from utilizing tanning beds, sun lamps and any other tanning gadgets that make use of UVA and UVB rays. Fortunately, there are California Tan products that make use of sunless tanning technology so you can get your desired tan without fearing skin cancer or getting sunburn.

**California Tan Sunless Tanning Products** You can find California Tan products from tanning salons. All you have to do is to choose from their wide array of sunless tanning products and solutions ranging from lotions to tanning sprays utilized on booths. Try to experiment with tanning products to see which suits you or better yet why not consult a tanning specialist so that you will be properly guided on the product to choose.

Among the tanning products the booth is one of the best options that you may consider. Why? Basically because with a tanning booth you are better assured of getting an even tan plus the effect is much longer compared to other tanning products, say lotion for example.

However, it is very important to bear in mind to choose only reputable tanning salons in your area since you may end up having an orange colored skin rather than the tan you desire. Plus there is also the danger that your skin may be damage while undergoing the booth tanning procedures. There are also products such as tanning accelerators, which hasten tanning while protecting your skin from getting damage.

Basically all products that make use of sunless tanning technology are ideal for getting a tan. And usually the healthiest tanning solutions and products often proved to be safest and easiest to use. When it comes to sunless California Tan products there are many brands to choose from.

Choose products that are appropriate for your skin type. This will prevent you from getting allergies or from damaging your skin. Likewise, use products that have moisturizing effects since it tend to make the tan to last longer.

Again, its should be noted that the tan you are to get out from utilizing sunless California Tan tanning products are only temporary which means that if you want to continue having tanned skin you would need to retouch or have it redone.

Skin Deep Tanning The abovementioned California Tan products provide tan only on the surface and that's why we call it as temporary tanning products. But if you want to have a tanned for real then the best way is to take tanning pills. Don't worry it is completely safe. How does it work? The tanning pills sort of dye the top layer of fats with a dark brown color. The dye would then show through the skin giving it a tan look.
