**Article Body:**

If you're used to thinking of gift baskets as cheap woven containers of semi-fresh fruit, you may be interested to discover just how creative gift baskets have become. There's something for everyone, and it's not even limited to food items.

**FOR GOLFING FANATICS:**

Got a client who loves to golf? Get him or her a golf-themed gift basket. Most include some gourmet treats, perfect for snacking on the green. But many of them also include great accessories, such as a putting cup, club cleaner, tee, ball marker, towel or golf club brush. The food may be gone by the end of the day, but the accessories will stick around, and remind your business associate of you.

**FOR GARDENERS:**

Most gardener gift baskets have a bit of a feminine theme, but many are neutral. Some include food, and most include accessories and tools like gardening gloves, seed packets, gardening tools, hand and nail cream.

**FOR SPA AND AROMATHERAPY ENTHUSIASTS:**

You'll find a terrific variety of spa, beauty and aromatherapy gift baskets available. Go with a scent theme, or choose one that includes soothing teas. Accessories can include such items as: wooden massager, back scrubber or soft

hand towel.

FOR EVERYBODY:

You can never go wrong with gourmet food and drink gift baskets - not with so many to choose from! If an elaborate, expensive champagne and caviar basket is outside your budget, go for simple with Shari's Berries, or a single bottle of Dom Perignon with some chocolate dipped apricot. These combinations are far more affordable, but speak just as eloquently to your good taste, which people will want to associate themselves with.
