Title:
How to Protest the Online Gambling Ban

Word Count:
501

Summary:
Protesting is relatively easy, all you have to do is let people know you do not agree with something and you are protesting it. But to hold a successful protest takes much more time and effort.

Keywords:
online,casino,gambling,ban,petition,protest,politician,congressmen

Article Body:
Protesting the government is not a cast of protesting a company because you do not like a product, this is a case of you trying to change the mind of the government and this can be hard to do, but it can be done.

Before you can even have a chance at holding a successful protest the first thing you should do is to circulate an online petition, this will give you an idea of how many people support your cause and gives you a list of names with phone numbers that you can call to get people to come to your protest.

The next step is to go online and find other groups protesting the new internet gambling act, and see if that group would be willing to join your protest, the more people protesting the online gambling ban the better the chances are of getting the law reversed.

After this you should start a letter writing campaign not only to your local congressmen but to all the Congressmen and see where they stand. Some of them will not be in support of the online gambling ban and will be willing to not only sign your petition but will be hey may be even willing to speak at your protest.

The next step is to plane your protest. The timing of your protest is important if you choose to protest at the Whitehouse you do not want to do it when the president is not there or if you choose to make your stand at congress do not do it at a time they are on a brake, this can make a big difference in the effectiveness of your protest.

Make sure to have a well written press release to the press at least 2 days

before the protest to ensure that you will get press coverage. The more people who hear about your protest the more names you can get on your petition.

The point of a petition is to basically let someone know that people are not happy with what they are doing, and if enough people protest the government you can get them to change their decision. This is especially true with a politician. They know thee job depends on votes and if they are going to gain enough votes to secure their job they will do it even if they truly do not agree with it.

You must apply for a permit to protest at least 30 days in advance, or if there are delays you may not have a permit on the day you have told your protesters to show up, to truly insure you have time, apply for the permits at least 60 days in advance.

When applying for the permits you should be able to find out about the rules for setting up any sound equipment you will need so you can make the arrangements for them.

The only thing left to do for your online gambling ban protest is to wait for the big day.
