Article Body:
Affirmative Insight Inc. provides information technology solutions in the areas
of IT security, networking, service and support, e-business, web design, web
hosting and software development. By partnering with A plus C Systems,
Affirmative Insight, Inc. expands its offer with a comprehensive suite of
software products – Uplook, Statlook and Anasil – tool kit for IT asset
management and network monitoring.

"We are excited about our partnership with A plus C Systems. It offers us
additional capabilities and expertise which will only benefit our customers.
Together, we provide our customers with a full range of effective solutions
which enable them to optimize their IT resources." said Baris Tuncertan,
President of Affirmative Insight.

A plus C will work closely with Affirmative Insight to provide pre-sales and
post-sales support, customer service and technical assistance to business
partners and clients throughout Canada. Companies that share the need for IT
resource management and its optimization can now enjoy the numerous benefits of
Uplook, Statlook and Anasil, including: PC audit, license management, hardware
inventory, Internet connection monitoring, user tracking and network traffic
monitoring.

Milosz Cechnicki, CEO of A plus C Systems said "We are delighted to partner with

a company with such an excellent reputation in providing defense related services and offerings. This relationship is essential to our strategic growth in this region".
