This is a review about the opportunity at,

http://www.clickingz.com/fastmoney

There you are taught a way to raise a big amount of money in a very short time.
I'll explain it here how its done, in short.

First, you make a report with a big promise. For example,

"Your Acne disappears in 3 days or your money it totally back"
"Claim Free Airline Tickets or Your Money Back" (For example, I have a book at
http://www.clickingz.com/travel , and I can change its structure to reflect this
system)

Then, you sell that report with a big promise at a very affordable price, which
your customers cannot miss - for about $5.

This is exactly what is done at http://www.clickingz.com/fastmoney and it
teaches you how to do the same. As a bonus, you can sell this report itself once
you buy it and everytime a sale is made, you get instant payment (full payment)
of $5 to your paypal account. No hosting or any hassle, once you buy the report,
you'll be given a link to promote this report itself and you are paid 100% for
every sale.

Realistically, even if you buy the report and just resell it for 4 people
quickly, you would have made a 400% ROI.

For more info, you can read http://www.Clickingz.com/fastmoney

You will also be explained about how to implement this system successfully.
